TESTIMONIALS.

From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.

From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts, I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.

From Mr. Wm. Petty, Estancia Caro, Colonia, Sept. 20, 1881—

"I feel great pleasure in informing you that the sheep dip supplied by you to me under the name of Gillard's Sheep Dip has had surprising results on my English long-woolled rams; it has kept them entirely free from scab after only twice using it, although those rams have been constantly running in a flock of scabby sheep. I intend for the first time to give it a trial with the whole of my English breed of sheep as soon as I have them shorn, as I feel satisfied I shall with that did keep scab out of the flock,'

From Messrs. Patrick Mahon, junr., Ciriaco Morales, and James Murray, Capilla del Señor, Sept. 18, 1881—

"It gives us great pleasure to inform you that, after giving a good trial to Gillard's non-poisonous sheep dip, we can pronounce it to be the best specific we have used as yet, and we are fully determined for the future to use no other remedy."

CORDOVA LAND AUCTION

One of the greatest surprises to this market was the public auction of 133 square leagues of land, at the Nat. Colonial land office, on last Thursday.

The lands in question were returned by Congress to the Government of Cordova, which Government had donated them with other lands some years ago to aid in the Rio Negro expedition. The Nat. Government, finding that they had more than enough to cover all the expenses of that expedition, returned these lands to Cordova, and the Cordova Government, availing of the present strong speculation in lands, had them put up for sale at Mr Victorica's land and colony office, upstairs, in the building of the Capitania in Calle Mayo.

Had the people entrusted with the sale of these lands thought proper to advertize more freely and give the investing public full information respecting the property it is likely enough these lands would have sold at 'Venado Tuerto' prices, but even with the limited notice given, Mr Victorica's office was so crowded that many of the bidders had to stand outside on the lobby and the stairs, and some friends who went to buy came away disgusted at the deficient arrangements of the whole business.

The lands sold appear to be very good, from the prices paid, although, from all the enquiries we made, they are a very long way off, some 35 leagues from the city of Cordova, and without water, in fact we could only get feint praise about the property; but evidently there was an object in keeping the business as quiet as possible, and people who knew all about the property availed of the stroke. The valuation set on the lands was 550 pats per league; as will be seen from the figures hereunder, some of the lands sold for 6 times that valuation. Let us accept this remarkable auction as an unerring proof of the rising value of Provincial lands. Property in the Interior is beyond all question infinitely below its value; and if any doubt our assertion, study the subjoined table and bear in mind that a year ago every league on this list could have been fought for $10,000 m|c per square league.

Lands in the provinces are coming rapidly to the front; these lands are a mine of wealth for those who judiciously invest in them; the greatest bargains perhaps in the whole world this day are to be made in these lands, since neither the sellers nor the buyers know their real value. The country, to use the beautiful expression of the gifted Miss Katherine Conway, is 'on the Sunrise Slope,' and of all the properties offering for sale in the Plate, the Provincial lands are immensely the cheapest. The following is the auctioneer's list of this land sale—

The average price paid was 1090 pats per league; the auction realised $f142,907, and had any party offered the Government 60,000 pats for the whole territory before the auction, he would have got it.

HIGH LIFE AT CARHUE.

The reading of the following official telegrams which came in yesterday will instruct our readers of how vigorously the frontier officers are shutting the door after the horse is gone. In fact, the industry, energy, indefatigable zeal and unconquered determination of our frontier officers are only to be equalled by the cowardice and lethargy of the savages, who actually come into the chacras of Bahia Blanca and clear out without sacking the town or burning down its houses.

The following are the telegrams:—

Carhue, November 30, 1881.
To the Inspector of Arms.

Official—Commander Farias has just advised me of his arrival on the Colorado in pursuit of the Indians. Lieutenant Boer continues the pursuit along the Colorado with 25 men mounted on the best horses. According to instructions 40 men will be statioued at Paso Alsina.

O. Villar,
Commander-in-Chief of the 2nd Frontier.

Carhue, Nov. 30, 1881.
8.30 p.m.
To the Inspector of Arms

Official—The information I communicated to you yesterday regarding the troops stationed at Trenque Lauquen should have been concerning Trarn-Lauquen. This mistake was occasioned by the telegraph clerk in the transmission of the despatch. I have already informed you that Major Zeballos was there with the detachment ordered by you, and which is supplied with spare horses.

On the 25th I sent him orders by chasque to immediately march to Lihuel Calel, where he probably is at this moment, and if necessary proceed as far as Curaco or the Pachecho Paso on the Colorado; Commander Rodriguez is also manoeuvring in the rear, and Commander Farias on the left bank of the Colorado. Every measure has been taken.

I have just heard that the 15 Indians who crossed the Colorado on the 25th have murdered two settlers and stolen about 100 mares. I think other accounts are much exaggerated.

O. Villar,
Commander-in-Chief of the 2nd Frontier.

President Roca has taken the matter in hand, and yesterday ordered the steamer Rosetti to get up steam and proceed to Santa Fe for the 2nd of the Line, a first-rate regiment that has been in Santa Fe doing nothing, when their presence on the frontier is so much required.

The President has also sent orders to the South to buy horses, so that we think we may assure our friends in the South, on the Sauce Corto, at Curamalan, &c., that this last Indian raid will awaken the authorities and the War Office from the High Life ennui of town.

THE TUCUMAN RAILWAY.

The report of the Department of National Civil Engineers has been just published: Although it appears rather late in the year and its size is not voluminous, the pages contain much useful information about railways, roads and bridges. The items and figures all refer to 1880, and very naturally lose much of their importance in the eleventh month of 1881, and it would certainly be most desirable that these memorias were issued immediately after the year they refer to.

The information from different employees, respecting the Central Northern or Tucaman Railway, sounds like a dirge. There are deficiencies everywhere, and we readily congratulate the informing engineer on the great frankness of his investigations. Since repairs began two years ago, 192,282 new sleepers have been laid down. It must be known that the sleepers of this railway were originally of quebracho, with much white, fresh wood, that wore away easily, and of algarroba, the fibre of which soon gave way and dwindled to saw dust. The new sleepers put down are all quebracho colorado, as hard as iron; the maximum duration of this quebracho under earth has not yet been ascertained, and it is known for a fact that quebracho sleepers of 15 years' date are as fresh and as hard at present as the day they were put down.

Mr. G. White, the Chief Engineer, states that there are still 150,000 more quebracho sleepers necessary, in fact it looks like a reconstruction of the line, in as much as the rails are in quite as bad condition as the sleepers. There are 2,579 rails in unfit condition, especially in the curves and at the base of gradients. In the Salina districts through which the railway passes 5,230 rails have been corroded by the action of the salt, eating away the base and one-third of the nerve or vertical side of the rails. 5,082 rails remain in pretty good condition, but slightly attacked by the salt. As regards the earth works, 46,000 cubic metres are to be excavated, for levelling purposes. There are 1930 telegraph posts in bad condition, and 80 kilometer marks are missing.

The locomotives are in no satisfactory condition; great defects are noted in the boilers, tubes, brass fastenings, in fact, in the whole play of the machinery. There are five engines that can be expected to work pretty well for the next twelve months. Six may be relied on for four months further service, but not more. Seven are in such bad condition that they can only be utilized for carrying firewood and ballast convoys; the repairs of the latter would cost more than new engines. There remains one engine entirely unfit for any service. Thus out of 19 engins, only five you may say can be utilized.

The passengers' carriages need much repairing: the cargo wagons have been well built, and have only one great defect, the shape of the roofing, which is of zinc and very much curved. Three poor fellows were killed whilst fulfilling their duties on these zinc man-traps; the metal gets slippery and they fall. This so frightened the other workmen, that when the men at the engines call for putting on breaks the employees do not move and remain in the waggons: but should any danger threaten they speedily aligh on the ground, leaving train and engine-men to their fate.

There is a special inspector on the line to superintend the whole personnel and condition of materials: but owing to several causes, amongst others, non-payment of salaries, the

TUDOR, equal in quality and flavour to Teas sold at $30 m|c and $40 m|c lb. Parties who have once tried it take no other. SOLD EVERYWHERE.

inspector did not do his duty, and this negligence cost the lives of three men and the loss of 30 waggons in a stupid collision brought on by inexperienced hands both on the engines and at the breaks.

In fact the report on this national railway is on the whole a melancholy tale of mismanagement and want of technical labor. But in spite of all these drawbacks, of all these defects and inconveniences, the Tucuman Railway is the greatest boon to the Northern provinces; it has opened up the country, given a fresh impetus to all productions, connected Tucuman with Rosario, and yields to the National Treasury good profits. If the line produces such results in its very worst condition, it is a pleasure to anticipate much more from a well-organized and capable management.

In the report of the Engineers of the Nation we must admire the frankness with which all irregularities and defects are pointed out, and it is to be hoped that the hints will go beyond the pages of the book, re-echo in the Minister of the Interior's office, and lead to an opportune reform in the railway department. We will have further occasion to dwell on the Andine, Eastern Argentine and Primer Entriano railways after perusing Don Guillermo White's important memoria.

EDITOR'S TABLE.

The new Royal Mail Steamer Derwent entered Montevideo yesterday and her mails arrive here this morning.

The Royal Mail steamer Trent will sail on Monday next. Our Packet Edition will be published to-morrow.

There was a tremendous pow-wow in the Government House yesterday about the Indians, owing to what appeared in the papers. It was resolved to make a clean sweep of the savages, and measures are being taken to this effect.

The Bolsa and National Bank literature in all the papers yesterday was ineffably dreary. We have read it all before in half a dozen languages. The monstrous excess of speculation will cure itself and can be cured in no other way. Legislation cannot do it.

There will be Mass and Sermon in English to-morrow at S. Roque Church at noon, as usual.

The matutinal question now with everybody is 'Well, where have the Indians invaded to-day?' Yesterday, for a wonder, no fresh raid was reported. Azul is safe so far, but no white man can tell what a day may bring forth. There is a general impression that another battue of the whole Southern Pampa should be instituted. It will be hard to finish with the Indians thoroughly and effectually till Chile makes peace with Peru and can spare some few thousand men to join this country in a campaign 'en regle' against the savages in both countries.

The Lord Mayor writes to the Administrator of Markets saying that the dear beef nuisance will never be removed till the article is sold by weight, as it is in all civilized countries. If we remember rightly this was tried here a few years ago and there was such a tremendous hub-bub both from the buyers and the butchers that the attempt was abandoned. We agree with the Lord Mayor when he says that the public, in a great measure 'tiene la culpa.' They prefer being robbed by the piece of meat, instead of getting value for their money in the weight. The monstrous Municipal taxes are the other main cause of the high prices. The price of beasts in the Corrales is not high, but the Municipality and the butchers make it so. Take all taxes off meat, and lay them on something else, if necessary.

The Provincial Government has contracted with Mr. Valdoop C. E. for the levelling and drainage works in the South, to prevent inundations.

The National School Board wants the Municipality to hand it over all the wast sites belonging to it in the city, to build schools on them. The City Fathers appear quite unable to see the fun of the thing, and the matter is still in the Committee's 'carpeta'.

National Bank notes are again coming into circulation. They are convertible into gold at sight.

The locusts are now busy laying their eggs in all the departments of Entre Rios on the Uruguay. A pleasant prospect for the farmers.

The collection for the album to be presented to the worthy Minister of Foreign Affairs, Dr. Irigoyen, now amounts to $25,000 m|c, but it is expected to reach 3,000 pats. If so, it will be an album of albums, but the recepient well deserves it.

The Municipality of Dolores has gone off the track again. Some time ago it issued a Sunday closing edict, similar to that in this city, but it has now retraced its steps and every shop in the town is now open on the Sabbath. 'Malo.'

It has been finally decided that the mooted 'Congress of Pedagogues' shall be held in this city during the Continental Exhibition. We hope something will come of it, as there is a deal of room for improvement in the educational system of the country, public and private.

After a long rest from politics, we perceive that they are raising their head again, and both sides are preparing for the fray. Bred in the bone, and more's the pity. The total absence of any thing in the political or electioneering line since the breeze in June last year was too beautiful to last, and now the old Adam bursts out again. One comfort is, that politics have lost much of their power to interfere with the progress of the country.

The news from St. John province is that the Cuyo Bank is not to go into liquidation, as reported. At the special meeting the liquidating party were outvoted by two to one. The Directors and Gerente voted little men with a full consciousness as to which side their bread was better buttered on, and they polled unanimously for carrying on the concern, which is said to be in a sound state. A Frenchman has offered to open an Agricultural Bank there, with a million pats, but he wants a guarantee of 7 per cent. on the capital. Funny fellow. A bank with a Government guarantee is the newest thing under the sun.

A young widow only *fourteen* years old was before the Curia yesterday arranging to be married again. Hear, Hear.

The Government of Santiago del Estero reports that silk worm culture is making rapid strides up there, and more eggs are required.

The annual picnic of the Scotch School will come off on Thursday next (a holiday) at Palermo Chico. The train will leave the Central Station at 9.55 a m and return to town at 6.48 p.m. Those who contribute hampers are requested to have them at the station not later than 9.30. The children will receive tickets for the train and grounds from the teachers to-morrow, Sunday, in the School room, and parents can apply for tickets, for the grounds only, at the same time and place. We hope our little Scotch friends will have the very finest of weather for their annual outing.

Should the weather continue favourable, reaping will commence in some of the Santa Fe colonies in about ten days. The prospects of the wheat are splendid.

The poor gipsies who arrived here some months ago are having a hard time of it. They have been driven from town to town along the Western Railway; they marched into Mercedes the other day, but got such a warm reception that they left at once.

The latest about the new capital of the province is that Belgrano is to enjoy the honour provisionally, as it is so very hard to decide on a permanent site. Many people expect to see their grand children married and done for before this capital question is settled, but we really think they are drawing the long bow. 'Quien sabe'?

Delmonico, the famous 'restaurateur' of New York, died worth two millions of hard dollars, a rather nice fortune to make out of beefsteaks and mutton shops.

Madame Tessero fainted at the Opera House on Thursday night while playing in the Demi-Monde, and the performance had to be suspended.

The famous City of London 'tienda', in Calle Peru, announces a mammoth show of Christmas Boxes and New Year Gifts to suit the taste of every nationality in town. Never was such a show seen here before.

We have to thank Mr. Leighton Jordan for a copy of his 'Amenities of Science, Literature and Banking, a crispy brochure which will be read with interest, as all Mr. Jordau's papers are.

No news from Montevideo yesterday. Another Spanish row at Durazno about the recent 'disappearance' of Mr. Sanchez.

The home papers announce that the King of Dahomey is preparing for a tour in Europe, and there is a very nervous feeling in all the Court circles as to what the interesting savage will wear and eat 'en voyage.' When at home his costume is made of a stuff called 'exni hilonilhift,' and it fits him beautifully: his favourite dish is cold missionary, and instead of playing Lawn Tennis after lunch he has often passed the afternoon in slicing off the heads of his attendant slaves, or looking on while his courtiers did so. A pleasant fellow for a visit to Windsor Castle or Shoenbrune. It is said that His Majesty has for some time given up both this amusement and cannibalism, and has promised faithfully to wear clothes while he is in Europe; but it is really a bitter sarcasm on European Monarchy to see any savage who chooses to call himself a King in his own country received with royal honours by European crowned heads. The Czar intends to give his cousin of Dahomey a splendid reception. What a farce! Kalakaua or the Shah of Persia were bad enough, but the line ought certainly to be drawn short of Dahomey. We suggest to our friend Shah Hueque that he would find a trip to Europe far better than thun raiding in the South. A Patagonia Kingis as good as a Dahomey one any day in the week, or the year either.

We regret to hear that the health of Dr del Viso, Minister of the Interior, has in no way improved by his visit to his native Cordoba, and he will shortly return to this city.

The news from Azul is that they had hard frost there on Monday and Tuesday nights, which played 'Viejo Enrique' with the wheat.

The Immigration Returns for November show the largest arrivals ever yet reached in a single month 7,500! This is in or about the thing, and is all the more satisfactory as the number of emigrants returning to Europe has falleu to nil.

Mr Mouse of Calle Piedras was robbed of all his clothes and a trifle of cash on Thursday, by some 'ratteros' who entered his lodging, on the cold ground floor, while he was out.

Coal found at last. Dr. Brakesbush, who was sent to Jujuy by the National Government to report on the rumoured discovery of coal in that province, says it is a positive fact, and that the 'black diamonds' are genuine and of the best quality. The question now is, who is the lucky soul entitled to the 20,000 pats which Congress voted ten years ago for the discovery of real coal in the Republic?

The news from Peru is that Gen. Good-Morning (Buendia) who was said to have been shot by some of the numerous patriots knocking about in that unforunate republic, is still above ground and in rude health.

There is a tremendous supply of potatoes on sale now. The streets are infested with hawkers of this pleasing addition to a hot chop. Nevertheless the price is not particularly low.

We are glad to see that the Lord Mayor, like the Emperor William, is himself again.' He had a severe attack of cholerina.

But for one small sale of gold at 25.05, there would have been nothing to report in gold to-day, and just as soon as Bolsa transactions are arranged, there will be nothing further to report on gold in the market. Gold is every day now taken to the Provincial Bank to be exchanged at par at the Bank.

Cedulas only one sale, but market much firmer. It seems that the Committee has passed the Government measure, and 4 millions voted as new capital to the Bank.

The ring opened very quiet to-day, and the ring ruled dull enough until about half past 12 o'clock, when some party stepped forward and announced that Mr Ghiraldez invited all his creditors to attend a meeting at half past 1 o'clock. As ⅔ of the ring figured in the category of creditors, the announcement was listened to with the most breathless attention, and since yesterday it was currently said on Change that the broker in question held conformes from one of his clients who had failed to pay up, and who was now brought before the courts, Dr Bunge being the lawyer retained by the broker. This is now the second time that rich, well to do, and responsible parties have failed to pay to their brokers differences which if in their favor they would have been but too ready to collect, and a wish is expressed that in the present case, the party who has caused the ruin of the broker in question be held responsible not only for the amount which they say is some 150,000 pats but also for damages. Two brokers who suspended yesterday arranged to-day paying 70 per cent, half cash and half on time; it was about the best that could be done. But the market this morning presents a demoralized attitude, and only those who limited their transactions in Bank shares to cash came out all right. It is not probable that this month we shall have such great speculation in this stock as last, unless another outsider occupying good position and credit in the market should think proper to enter, either to win or smash his broker. In fact, the market here is too small to meet such tremendous differences, and as the Bank stock is now more spread over the market than last month, the fluctuations will not be so heavy as many holders will keep their stock till the dividend, when it is thought the shares will be considered not dear at 130. The bank has no doubt much in its favour, and now that it enjoys a specie emission and circulation, if due care is taken of its reserve it will doubtless do a very large business. It is quite plain that every aid and support the Government and Congress can give the bank it will have, and by the middle of this month we hear the bank will receive the judicial deposite, which is an all important matter. Thus for a few days we cannot look forward to much movement in the stock, some parties hold shares at very high prices, but they are able to hold them, and as there is nothing else to speculate in in this market save shares, holders, if they understand their position, can control the market.

The departure of the Curumalan party this morning at the Central Station was the event of the morning; a grand gala coach was placed at their disposal, and the party consisted of the following distinguished gentlemen:—

Mr Edward Casey
Mr James Casey
General Osborn, U. States Minister
Mr E Tornquist
Mr Lett
Mr Brett
Mr Gahan
Baron von Gravenegg, Austrian Minister
Mr Becker
Mr Mendez
Dr Rosa
Dr Demaria

At the Station, spite of the early hour, a large crowd of friends attended to see them off. Mr Casares accompanied the party as far as Barracas, and read for General Osborn the news from Bahia Blanca in this morning's *Standard*, which was not over welcome, and excused the great display of guns, fowling pieces, rifles, revolvers, &c.; we think a better armed party never left the Station. Yet it is our conviction that if at Azul further bad news is received about the Indians, the party will not go much farther than that delightful country town. We hear that at Don Goyo Soler's estancia an escort of 25 men will be engaged, and we for our part say that if the Indians come across the Curumalan party, God help the Indians; they will catch Tartars that they little dreamt of; General Osborn has taken down a splendid rifle for the fixed purpose of taking down a few Indians on the road, and as the General is an old hand in Indian warfare the savages will find to their astonishment that the Curumalan party has no "relacion" with our War Office. We wish our friends a pleasant trip and hope to see them back with laurels.

Messrs. Tomkinson and Dungey report the following charters:—

Italian barque Ricordo to load bones and ash at 26, at Gualeguay.

Danish brig Louisa to load farifia at Santa Catalina for here in 1150 pats.

Telegrams from Havre auction are most favorable: the auction opened at an advance of 3 on previous prices, and advance maintained.

National Bank Shares opened very quiet, but very hard at 108¾, and shut at 110½. Cash only 370 shares sold, and for end of month only 550 sold opening at 111, and closing at 112; total days sales 920. This shows a tremendous falling off.

Roads and Bridges one sale 5000 at 102.

The sales at the ring were—

For cash 1,200 25.05
Cedulas—
For cash A 15,400 98¾
Nat. Bank Shares—
For cash 370 shares 108½-110-109½-110½
For Dec. 31st 550 shares 111-½-112
Sales, 920.
Roads and Bridges—
For cash 5,000 at 102

At the close of the ring there was a general upward movement, and all those interested in the Ghiraldez business went up stairs; the meeting was presided by Dr Bunge, not much done, nothing whatever offered, and a committee named to understand with Dr Bunge about suing certain parties. It appears now that one of the editors of a well known native journal is the responsible party for all the deficit, a rather blue look out for the creditors who care nothing for printing ink; editors, as a rule, make very poor speculators, they know too much and have too superior information.

Res coting the great Cordoba land auction yesterday, we have the following:—

The lands which were sold yesterday in Public Auction by the government are generally fine camps with the exception of a few lots which nevertheless have been sold at relatively good prices. The best of the whole lot are those known as los campos de los Morteros. These camps have a sure future, as the projected Railway of Santa Fe to Santiago del Estero passes through them and they are only 20 leagues distant from the colonies San Carlos etc., and at the same distance from the Capital of the Department of San Justo. El Tio? These camps are cheap at $F1500 the league; the terms of the sale were 25 o/o cash, and the balance at 3, 6 and 9 months.

At afterhours there was very little done, owing to the whole ring being occupied with the liquidation. The liquidator, of course, as yet has paid out nothing, but it is thought to-morrow affairs will be straightened and differences paid out. The Ghiraldez estate it seems so far can only pay 10 o/o, and many believe it will give not a farthing more. National Bank Shares rule tight and scarce, and prices rising; one sale of 100 cash at 112, and for end of month something done at same rate. Gold nil, and Cedulas in demand at 99.

The Savoie sails to-morrow and takes a mail.

The shareholders of the Platino Telegraph Company are notified of another dividend having been declared.

We received to-day Mr Agote's report of the Public Credit Offices, which we hold for close perusal; it is a most important work.

This being the birth day of the Emperor of Brazil, the flags were all flying, and Baron Gondin, Brazilian Minister, was waited on by the leading Brazilian merchants in this market. Dom Pedro is beloved and esteemed by all ranks, he is without exception one of the most popular and illustrious monarchs of the day, and his reign has been identified with a progress and prosperity which have lifted Brazil to the foremost ranks of nations.

The Portena sailed to-day a full ship; she took home the crew of the Esperance lost in the gale off the Catalinas mole.

Dr Ortiz, Senator of Salta, has purchased a fine house in Calle Maipu for 700,000 m|c.

Mr Forrester goes to-morrow to inspect some steeped lino which is being harvested for the fibre, the first of the kind in the country.

Mr Paret, who has arrived from Lobos, reports lino crop splendid out there.

Notice was posted on the black board calling all parties having accounts with Don Trifon Ghiraldez to send same in to the Committee, which consists of 6 brokers.

The new R.M. ss Derwent, entered Montevideo to-day.

According to the *Nacion* telegram £50,000 in gold were shipped at Southampton on 30th November for Plate. The arrival of gold now has no significance.

The English Bank of the River Plate paid stamp duty yesterday on its charter $229,000. This seems to us a most enormous impost before the new concern has been able to earn a dollar for its shareholders. The Minister of Hacienda ought to give new banks free permit for the first few years.

The National Bank is now paying out specie notes convertible at sight. This will prove a very great convenience and very materially help the market.

Yesterday the Provincial Bank again paid away a very large sum in paper for gold brought to it, and each day, spite of the Bolsa quotations, the Bank exchanges at par paper for gold.

The Brit. str. Otway Tower took the following cargo:—

THE RUMOURED CHANGES IN THE MINISTRY.

With reference to the rumoured Ministerial changes, the Premier telegraphs as follows to the Central News agency:— 'There is nothing of any kind to be added to my public declaration on this subject.' It will be remembered that in his Leeds speeches Mr. Gladstone slightly referred to this point.

In view of Mr. Gladstone's declaration from Hawarden to the Central News, that he has nothing to add to his public declaration on the subject of his retirement from public life, it will be interesting to recall the Premier's words at Leeds. Speaking on Oct. 7th, he said: It is not for me at my time of life, and nearness to its inevitable close, to anticipate those future years of strength and service which you are good enough to desire on my behalf, but yet, though I do not indulge in any such anticipation at all, though I confess I think that repose of mind and reflection on other matters are more appropriate to the latest stage of our human existence, yet I do not on that account look forward with the slightest lack of confidence to your future as the Liberal party of this country. I know that when I depart I shall hand over the charge that is now entrusted to me to other hands, I shall hand it over to men already possessing your confidence, who have already shown in many a well-fought field of what metal they are made, and here I do not mean to speak only of one whose distinguished name is ever dear to all of you —my excellent friend, Mr. Bright, because he, too, is but one stage behind me in the journey through the vale of years; but I speak of Lord Granville (cheers). The most intimate and almost daily communication during many anxious years has given me the most thorough knowledge of his great abilities and of his admirable devotion to the service of his country, and of his capacity to serve it if Providence so ordain. I speak also of Lord Hartington (cheers), who, in the struggles in the House of Commons, has likewise earned the confidence of the country, and has enabled you to build your expectations of his future upon the ample experience of what he has been to you in the past (cheers). Therefore, gentlemen, I look forward with confidence to the Liberal party as in no degree dependent upon the slender thread as yet unbroken, of my own political life.

Speaking later on, the right hon. gentleman said: I wish now to repeat one thing only of what I said or endeavoured to say, in a speech of yesterday, that when the time comes, and come it must very soon, when I cease to be able to carry on the duties with which I am now entrusted, there are two men possessed already of your confidence, already enshrined in your affections, already tested by long experience, to whom I well know that, with safety and with advantage, these duties may pass over, and these two men, with other and fresher years in various degrees of the future before them, will serve you, not, perhaps, with greater sincerity, but in such a manner as I know will secure your confidence and attachment. Those two men, I need not say, are Lord Granville in the one House of Parliament and Lord Hartington in the other.

ANOTHER SHOCKING SHIP-WRECK,

ALLEGED BAD BEHAVIOUR OF THE CAPTAIN.

The Clan Macduff was one of the Clan line of steamers, and left Liverpool on the 18 inst. for Bombay. She was an iron screw steamer of 2,328 tons gross register, built at Glasgow in 1870, and was owned at that port by Messrs. Cayzer, Irvine, and Co.

The following is the story of the shipwreck:—"The Clan Macduff, which was formerly known as the City of Oxford, left Liverpool on Tuesday with a valuable general cargo, chiefly consisting of Manchester goods, and nineteen passengers, all for Bombay. It was cloudy when the pilot left her, which was near Holyhead. The wind, which had been veering from southward to westward, afterwards began to freshen. On Wednesday morning the wind blew strongly from the S. E. The sea was likewise running high and continued to rise, as did also the wind. In the evening the bilge-pumps, which had been placed at work, began to be choked in the engine-room. The sea had not yet become sufficiently powerful to break over the stern, and all the engineer staff was engaged in endeavouring to clear the pumps, but ineffectually. Through the night and on Thursday morning everyone, except the men at the wheel, was ordered to go below to help. In the meantime a leak was discovered to have arisen in the engine-room. A steam-pipe was then washed away by the sea, and later on it was found that the water went down into the engine-room through the hole made. As soon as discovered that gap was plugged up with blankets and waste. Still the water gained in the engine-room and stoke-hole, but its source could not be detected. As the water increased the coals in the stoke-hole broke away some sea-pipes in connection with the feeding of the boiler and a heavier leak set in. Up to this time every means had been employed to clear the bilge-pumps, but the coals and every sort of rubbish such as gathers in bilges had become so tightly jammed that they could not be extricated. The other pumps were tested in every way, but all the working availed not to reduce the water. As many as could possibly get near the two stoke-holes were occupied with passing buckets up and down, and throwing the contents out of the ship. This continued until one p.m on Thursday. The wind and sea went on increasing. The vessel rolled heavily, and was being swept from forward of 'midships to aft by tremendous waves. Soon the water made inroads into the engine-room, and the few fires that had not been put out by the roll were speedily quenched. At one o'clock there were six feet of water in the engine-room and stoke-hole, baling having ceased at ten, as the men could not stop below. Shortly after one the captain recognised that the vessel was likely to founder, and gave the order to get out the six boats. The lee side boats were first prepared. The larger lifeboat was launched alongside, but was dashed to pieces against the side of the ship. The scene was agonizing, the women and children yielding to heartrending terror, whilst the shouts of the officers could barely be heard above the roar of the gale. After an interval an effort to launch the gig was successfully made, and this time it was decided to place in the boat a complement of four able seamen. The fourth officer, T. R. Barclay, and Mrs. Barclay and child were lowered into her. She soon dropped astern, and held on by ropes until the 3d officer gave orders for the painter to be cut. This was accordingly done, and she dropped out of sight. The next boat to be launched was the cutter, and previous to being carried across the deck and lowered from the starboard gangway, the third officer, the second cook, and two able seamen were put in her. After she had safely dropped alongside, Mr and Mrs Maver, Miss Hayes, Mr Akhurst, and Mrs Jacobs were equipped with life buoys, and jumped from the deck into the water. Each one was also secured with a line from the ship, and by these means they were kept afloat until pulled into the boat. Then one of Mrs Jacobs' children, a little girl of four years, was thrown to her, but a sudden roll separated the ship from the boat, and the little one fell, falling into the water, was drawn out of sight by the suction. In another moment the boat rose to the side of the ship, and instantly the captain threw her second child, a boy, safely into the arms of the frantic mother, and the boat then dropped astern, and was cut away in a minute. This boat also was lost to view in the immense seas, in which it was hardly possible for it to have lived. There now remained but one boat to take off the whole of the other people on board, forty-five souls in all. During the progress of the gale the other three boats had been smashed to atoms. The remaining boat, the small life-boat, would but hold thirty at the utmost. The second officer and two of the men got into her, and were lowered with her. Then the remainder of the passengers, the chief cook, five stewards, and the stewardess, were drawn into the boat in the same way as before. Down to this time Captain Webster had preserved the management, but now—having, it is true, seen all the passengers into the boat—he placed a lifebuoy on himself and jumped. The chief engineer and one of the crew followed his example, and the boat was at once cut away. Previous to jumping the captain, addressing the chief steward, said, 'Get on this'—handing him a lifebuoy. Mr Sidler refused, and the captain thereupon rejoined, 'If you won't, I will,' and immediately did so. The crew remaining on board were startled at his desertion, and when the captain reached the boat they could see that the passengers were upbraiding him for leaving so many of his men to their fate in a sinking ship. This boat which was without a rudder, also drifted with the wind, and was lost sight of in the blinding spray. Immediately the last boat had disappeared the chief officer took command of the Clan Macduff, which was labouring in the trough of the sea. Lights, rockets and canon were prepared for signal purposes, and as soon as the shades of evening commenced to slightly close in the various illuminations were burnt and the fog horn sounded. During the night the vessel lay completely at the mercy of the storm. Her decks were washed from stem to stern, and she gradually but surely dropped by the head. As morning broke the Clan Macduff began to settle down aft, the water pouring in from between decks through the saloon. The crew once more took themselves to baling. The officers bravely cheered them on, but the water still gained and was forcing its way into the store-room amidships. At noon on Friday the decks were level with the sea. At this time a steamer was sighted—a steamer to leeward. A cheer went up from the storm-tossed vessel. The crew rushed to the deck to see the sail, and at its sight some of them actually cried with joy, and then once more hurried below to resume the baling. Two of the men ascended the main rigging and hoisted sheets and flags to attract attention. Even when the steamer was within four miles, however, no notice was taken of these signals. But in the haze the danger had been guessed at, the vessel got ahead of them, and on seeing the steamer apparently leaving them to their fate the crew of the Clan Macduff abandoned hope. Suddenly the steamer put about, and then another outburst of cheering went up from the excited and exhausted men. In two hours the Cork Liner Upupa had reached within hailing distance of them and had launched two boats. Ten men jumped from the Clan Macduff into the water, one after the other, and were safely drawn on board the first boat. Three of the crew had sustained such shocks to their nervous system that they had to be bodily flung over the side of the Clan Macduff by the chief officer. Two others, with whom he was going to deal in the same manner, ran away from him, and then the chief officer, yielding to the solicitations of the survivors in the second boat, took the plunge. The two others thereupon became alive to a sense of their danger, and coming back to the side jumped also. The whole of the nineteen survivors were hurriedly picked up and kindly received on board ship by Captain James Maxwell Brown. The Upupa stood alongside the Clan Macduff until nine, when she suddenly disappeared in a terrific squall, her deck for some time previous having been level and washed by the water. The Upupa then bore up for Plymouth, where she arrived on Sunday evening, after weathering the fearful gale of Saturday night, during which 200 head of cattle were washed overboard.

HOWARD'S CELEBRATED PLOUGHS

Howard's

Small Ridging Plough

Weight ¾ cwt.

Howard's

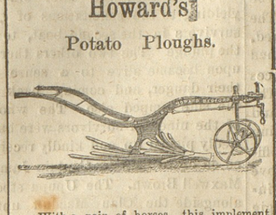
Water-Furrow Plough

This is a modification of J. & F. Howard's Ridging Plough. It is used for making the water furrows for surface drainage on arable land; the peculiarity of its working is that the earth thrown up on each side of the furrow by the mould boards, is moved away from the edges of the furrow and is harrowed down level with the field, a level surface is thus left for the Reaping Machine, and drainage is facilitated.

With steel breasts, weight 1¼ cwt.

Howard's

Potato Ploughs.



With a pair of horses, this implement will raise three to four acres of potatoes in a day; it leaves fewer in the ground than hand digging, and the roots are raised with less bruising or scratching of the skins than by any other method. These Ploughs have stood the test of many years experience, and the demand grows larger annually.

D, fitted as above, weight 1¾ cwt.

ROUGHING IT IN THE COLONIES.—There can be no doubt that a man has to put up with many little inconveniences when he settles in a new country; some of them arising from 'the necessity of things,' whilst others are the result of his own want of knowledge or foresight. However, if he can secure pure water and good bread he will manage to get along tolerably well. Thanks to the advance of chemical science, this last desideratum is not so difficult to obtain as in times past, for with a good supply of BORWICK'S BAKING POWDER, even Robinson Crusoe himself might have produced the whitest and most palatable of bread, to say nothing of cakes and pastry *ad libitum*, and would doubtless have ended by opening a pastry-cook's shop upon his desert island. NOTA BENE.—Don't forget to ask your storekeeper to put up a good supply of this valuable article with your groceries. In packets, 1d, and 2d,; boxes, 6d. and 1s. each. (a)

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 6th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, DR. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleraic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera.—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J. Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
